Save time and money with the MBRA-E Auto Leveling Pallet Forks from Boscaro.

Lift safely and efficiently with these versatile pallet forks. An internal spring system automatically levels your load to the most neutral position, and the adjustable verticle riser and tines ensure that no load is too big or too small to handle.

All Boscaro below-the-hook accessories are certified for use across North America and meet or exceed ASME-TH1/B30.20 standards.

Each unit comes with a dedicated serial number and conformity statement which ensures compliance with ASME.

The best money we've ever spent on crane accessories.
